a rough community of interest for those individuals. I've also been advised that people to the east of Highway 61 typically will go to Valentine and that they consider that their area for trade. Now they also may go to Hyannis, but the fact of the matter is that Highway 61 represents a reasonable division in their interests and it seems to me to be reasonable to divide the line there. Senator Erdman represents the precinct lines are more identifiable in some respect than highways. I have never been able to look at a road map or any other reasonable, any other thing than a specialized map and see where a precinct boundary is. I can look at a road map and I can see where a road is. If the proposal from the committee is adopted, the precinct lines in Cherry County would have to be conformed to the legislative district lines. So there isn't going to be a question about whether or not the legislative district lines follow precinct lines. That would be required by law. So you would be able to look in that instance at a common road map and tell where the boundary for the 49th Legislative District would be. It is kind of...

SENATOR CUDABACK: One minute.

SENATOR WICKERSHAM: ...beyond my scope of imagination to know why it wouldn't be just as appropriate to look at a road map and find out where the district boundary is as to have to go into the county clerk's office and say where's the precinct map. I want to find out where the 49th Legislative District is. So I'm not quite sure what...why we are back on the Erdman proposal or why it was proposed in the first place. My original communication from Senator Erdman was that he was concerned about the representation of Arthur County. We've adopted an amendment that solves that concern. It seems the rest of this is not something that requires extra time from the Legislature and certainly I guess if you want, obviously you wish to discuss it so I suppose...

SENATOR CUDABACK: Time.

SENATOR WICKERSHAM: ...we'll be happy to do that. But I think that Senator Erdman's proposal...
